WO COST CAMERA COLLEGE AND A COLLEGE AND COLLEGE AND COLLEGE AND A COLLEGE AND A

THE BRITISH COLONIST. Thursday Morning, May 11, 1871. Sectionalism. In giving to the people of the Mainland a very proper admonition to qualify themselves for voting at the next election by having their names placed on the register, our New Westminster cotemporary indulges in remarks which we would fain hope are not the result of that calm reflection which should guide the pen in such matters—remarks the full import and tendency of which could scarcely have been well considered. In the early part of the article al-laded to the people are urged to the duty of registering, "in order that the best men for the general well being may be sent to the local Parliament. To this no exception can be taken. Indeed no sounder sentiment could well be enunconnoer sentiment could well be enun-ciated. But, looking down the article, we find in grim and painful contrast with it the following:—"Yory good men may offer themselves as candidates for our suffrages, but unless they are Mainlanders to the back-bone they are worse than useless. Our representatives must go to support our interests and those alone." Without attempting to reconcile the glaring contradiction which we have taken the liberty to italicise, we would ask our contemporary to consider for a moment the inevitable tendency of the sentiment conveyed in the latter extract. British Columbia has been divided into electoral districts in such a way s to give the mainland thirteen representatives in a Legislatiure composed of twenty five members. At the first blush this may seem favorable to the Maioland for the purpose of making war against Vancouver Island. Thirteen to twelve is odds, it is true; but it must be admitted that the odds is very small. But, in such a fratricidal war, is our contemporary quite certain that the thirteen from the Mainland will be a unit, as against the twelve of the Island? The defection of only one would turn the scales and give the odds to Vancouver Island, and then our contemporary might have occasion to regret the war he had foolishly and, as we think, gratuitously provoked. We will go farther, and suggest for the consideration of our contomporary the unreasonableness of expecing all the thirteen Mainland members to be returned on the sectional war ticket. What sympathy, for in-stance, can such constituencies as Carihan and Kootenay have in common with New Westminster, should the last named district make the mistake of committing itself to such an issue? The interests of both of these districts are chiefly of a commercial and mining character; and it will scarcely be questioned that in both of these, especially the former, they are more closely indentified with Victoria than they possibly can be with New Westminster. Indeed, it is extremely problematic as war against Victoria. It appears to be morally certain that they would not all do so; and we would ask our contemporary to consider how far the at tempt to commit the important district of New Westminster to a course against the success of which the odds is so great, can e justified. Having regarded thosubject from the lower stand-point of policyof mere expediency, let us endeavour to look at it from the more elevated one of loyalty and patriotism. It there ever was a period in the history of British Columbia when the patriotism of its people was appealed to it is assuredly the present. This Colony is entering upon a new career; and it rests with the people to say whether that career shall be a glorious or an ignoble one. Having east off the red tape and sealing-wax of Downing-street, it is faunching out upon the sea of political liberty and self-government. The ship is, indeed, a noble and a well-tried one; but it has notice and a went the some dangerous breakers and critical navigation before it. Is this a time for the officers and crew to fall into paltry disputation, to quarrel over the dry bones of dead political issues? Shall the crew mutiny before ever the stately ship has left the harbour? It occurs to us to ask our up river contemporary why it is that he desires to revive sectional issues at the very moment it is the duly and the common interest of all to rise above these? Why should the distinction between the Island and the Mainland be revived now? We had hoped that it would have been buried with the system which gave it birth. Victoria seems to be to our contemporary very much what a red blanket is to a Spanish bull. We beg to assure the a Spanish but. We beg to assure the people of the Mainland, and none more than the people of New Westminster, that there is no desire on the part of this community or on the part of Vancouver

Island to do them the slightest injustice.

of mulnity or of the part of valeducy of Island to do them the slightest injustice. The general desire is to let all old sectional issues die with a departing system, and unite in one common effort, without distinction as to creed, birth or locality, to place this magnificent Colony in its true position as the Pacific Province of the Dominion; and we are free to confess that unless the whole people of the United Colony, without distinction as to the Mainland, and Island, are prepared to come to the work of soil government in this spirit, the prospect of working out Responsible Government in the interest of the Colony as a whole is none of the brightest. We would, therefore, submit whether our contemporary would not better disobarge the important functions of his calling by educating public opinion up to the higher and more national standard of colonial duty than to seek to set the various sections by the care at a time when hurmony of feeling and unity of action are indispensable conditions to success. NEWS! NEWS!

The "British Colonist" is the only Newspaper published at Victoria that the Latest Telegraphic Dispatches, as a comparison will prove. Late Telegrams appearing in any other paper are copied without credit 24 hours after they have appeared in the British Colonist. The circulation of the British Colonist being greater than that of any other Paper, it offers the best medium to Advertisers.

The News.

In our Exclusive Dispatches will be found news of more than ordinary importance. The capture of Fort d'lesy by the Government forces may be regarded as practically deciding the fate of the Communist folly, outrage, treason. This fort completely commands Paris, and we may expect at any moment to hear of the surrender of the city. The news from Frankfort is also important definite peace between France and Germany was signed at 2 o'clock p m, yesterday. Nor is the news respecting relations between Great Britain and the United States and between Canada and the latter less interesting tween Canada and the latter less interesting to the people of British Columbia. That the result of the labors of the Joint High Commission on the fishery question should have been received with disfavor in Newfoundland we were quite prepared to expect; and we shall be greatly surprised if it meets with a better face at the hands of the Canadians; that better face at the hands of the Canadians; that is, of course, assunging the version which has reached us to be the correct one. The Times may think the whole arrangement satisfactory, but it by no means follows that the people of Canada will. We hope, however, that the basis of settlement is less unfavorable to Canada than we have been led to fear, and that a lasting good understanding and solid friendship were be the result.

ship may be the result.

SANDWICH ISLANDS ITEMS .- We have Hono lulu papers to the 15th April. The Advertiser says that theschooner Cambria, Capt Meldrum 27 days from Victoria, arrived on the 10th of April A number of exaggerated reports had been in circulation about a rebellion among the lepers. The facts are that a party, headed by William Humphreys, a half-white, rose upon the overseer, a Mr Walsh, and confined him to his house. They then proceeded to help themselves to the supplies of provisions the process of the process of the supprise of the s after which they released the superintendant. This is the second time that there has been s This is the second time that the has been disturbance among these unfortunate people on account of shortness of supplies. His Excellency the Minister of the Interior proceeded to Molokai to investigate......The Hawaiian steamer K-timea has gone on a coral reef near Kaunakakai, on the west side of Molokai, and, the coract and will prove that loss as both Raunarakii, on the was said of said of

NEW WHALING PARTY .- By Capt Calhoun's brig Byzantium, yesterday, from Honolulu, came our old acquaintance Capt Roys and officers of a whating expedicion which is to be fitted out at Victoria and to which is to be fitted out at Viotoria and Lin-sail for active service on the 1st of June. The party bring every requisite for taking the fish and saving the oil: whaleboats, Roys' guns and bombs, lances, tions, tanks, try-kettles, cask.—all are on based the brig in elegant profusion. The Byzanium wifi be used for the purposes of the expedition, and will cruise in Queen Charlotte Sound and will cluse in queen Charlotte Sould during the summer months and come into the Galf of Georgia in the fall. Expense will not be spared in providing the expedi-tion with all things needful for making the venture a profitable one. Capt Calhoun is a man of great energy and enterprise, bas unman of great energy and enterprise, has un-bounded faith in the whaling resources of large sum of money in proving that that faith is not misplaced.

RAILWAY COMBINATION .- A dispatch from Toronto dated April 25th says that an arrangement has been concluded between the Great Western and alichigan Central Railroad Companies, for the period of twenty years, through which the entire through earnings are put into a joint purse and then divided. Both companies also bind themselves not to inter, change traffic with any new lines across Canada or Michigan. This virtually consolidates the lines and makes them one, for through traffic between Chicago, Buffalo and Saspension Bridge. The tunnel to connect the two lines under Detroit river is also to be commenced forthwith. The importance of this arrangement will be understood by those of our readers who have travelled over the road. Toronto dated April 25th says that an arrange

PERSONAL .- The Hon Mr Phillippo leaves this Colony to morrow to assume the duties of his new appointment in British Guiana. A residence of scarcely more than twelve menths has sufficed to make this community feel that the Colony sustains a severe loss in the departure of Mr Phillippo. It is the lot of but few public men to find their services and abilities more promptly recognized than has been the case in the present instance. Mr Phillippo's brief official connection with this colony has covered a period well calculated to put his ability to the severest test; and the many Acts which he leaves as a monument of his labors attest his fitness for the important emergency. British Columbis may, indeed, consider herself singularly fortunate in this respect. But while the public have not been slow to recognize the ability and appreciate the services of Mr Phillippo, they will be sufficiently selfish to regard his departure with deep regret. The forense accumen and judicious statesmanship which have been so important in the work of creating the machinery assential to the new state of political existence would have been no less valuable in working out the new system; and it must be a matter of pullippo menths has sufficed to make this community ence would have been no less valuable in working out the new system; and it must be a matter of universal regret that Mr Phillippo could not have remained at the helm at least for a year or two until prentice hands 'had acquired more experience. But it must not be forgotten that the Colony's loss is his gain. We congratulate him up deserved premotion, and assure him that he will carry with him to and assure him that he will carry with him to wishes of the people of British Columbia.

SUMMER GOODS .- A B Gray has received per steamer Pacific a large assortment of goods suitable for the present season, comprising Muslins, Prints, Hollands, Billiants, Alpacas, Lace, Barege and Wool Shawls, Silk, Cloth and Holland Jackets, Flowers, Silk and Cambrio Sunshades, Linens, Cottons, Hosiery, Ribbons, Laces, &c.-Government Street, May, 1871.

FROM THE MAINLAND .- The steamer Enerprise, Capt Swanson, returned from New Westminster last evening, bringing about a dozen passengers, amongst whom we noticed Mrs. Moody, Mrs. Alberts, Capt Irving, Messrs. C. E. Pope, S. P. Moody, H. Nelson and H. Mitchell, The Enterprise brought a Lower Fraser express for Barnard, but nothing from the interior.

DISPATCH LINE .- The American schooner Staghound, Capt Piltz, 12 days from San Francisco arrived yesterday morning at 6 o'clock. Pleasant weather was experienced during the passage. The Staghound comes consigned to Mr C T Millard and brings 200 tons of goods. Capt Pilez has our thanks, or files of late San Francisco papers.

INTERESTING TO THE LADIES .- Paris has

long been leader of the fashions and France

the emporium of fashionable fabrics. The functions of both, in this respect, have been greatly paralysed by the late terrible war, and the revolution which followed continues to interrupt the resuscitation of these unntions. The consequence is that all French manufactures, especially silk goods, have experienced a very decided upward tendency and are still rising. It is, however, a fortunate circumstance for this community that Messre J P Tunstall & Co. of London, happened to make a very large purchase just in time to escape the great rise. These goods are from the celebrated factory of the best are from the celebrated lactory of the best makers in France (O J Bonnet & Cie, of Lyons) and the ladies of Victoria will be pleased to know that a very rich assortment from that large purchase was received at the London House by the last steamer, and that the patrons of J H Turner & Co are to get the full benefit of the favorable circumstances under which these goods were bought. were bought.
